

"From St Rose comes the Truth! Ladies and Gentlemen, the RED has arrived! Just over three years ago, when 12 y.o. RED pressed his father, Brian Moore of the Moore Foundation, to help him put down some tracks about the things he was going through at the time, which did not take long to become local favorites like "(Life As A) Shortee" and "Lean With Me". Audiences of all ages, young and old, gravitated to the messages of the pressures we face in our daily lives and the struggle to stay positive through it all. With that kind of vibe, it didn't take long to form alliances with established brands like youth organizations Planet Mike Earth, Hot 702.5's with Gracie Love, And What Clothing Fashions, Urban Culture Magazine, and more, making him a favorite draw at countless live performances, and appearances on web,

radio and television, solidifying the RED Vegas brand as a 702 fixture.

The kid has been paying his dues, and is ready to cash them in, as The Moore Foundation is dropping his debut EP "St Rose The Truth" with eight of his most dangerous tracks. Not your typical rap content, RED puts pen to paper to express both what inspires him as a kid, and what frustrates him. He verbalizes the struggle he has with family, his growing success and the sacrifices made along the way, the savage nature of social media, his faith, and in spite of all of his gifts and curses, he's still just a kid, who wants to be just a kid. The Truth doesn't get more honest, more sincere, more real than this.

Despite his young age, he's not even old enough to drive yet, RED and his EP " St

Rose The Truth" have been YEARS in the making, which is why this project has such a deep, personal yet professional vibe to it.
